

Education Overview

Leaders' College education system goes beyond what can be learned from a book and goes beyond what can be learned in the classroom. Leaders' College education system aims to educate the whole child. It does not aim to prepare children to pass exams, but to prepare children for adult life. The exams are not the goals that our system is aiming for. The exams act a mark to indicate how far a student has gone in their education. They reflect the skills and abilities a student has for a future university or employer.

. Leaders' college education system has clear aims.
