

Leaders' College can help you achieve your family goals by providing personalized guidance, support, and resources.

The research is clear: nothing motivates a child more than when learning is valued by schools and families.

Well - organized parenting sessions will be held through the academic year, so we can move in the same direction.

Our Parenting Sessions may include, but are not limited to:

- Family goal setting.
- Assessing current parenting practices.
- Formulating a plan to cope with children's behavioral concerns.
- Ideas on how to move closer to parenting towards your goals.
